

What is GAP ?

Good Agricultural Practices

GAP (Good Agricultural Practices) is a way of farming aimed at improving the quality, safety and sustainability of agricultural products while caring for the environment and farmers.

What is ASEAN GAP ?

ASEAN GAP is a standard for good agricultural practices in the ASEAN region, which is developed to enhance the **harmonization of GAP programs within the ASEAN region.**

This will facilitate trade between ASEAN countries and to global markets, **improve viability for farmers, and help sustain a safe food supply and the environment.**

Thailand's GAP: Q-GAP supports safe and reliable production, in line with ASEAN GAP in Food Safety area.

Q GAP Restaurant

Your Choice For Future

Our Food,
Our Responsibility
Harvesting Health
From Our Green Fields 

What you buy helps build a sustainable society.

JICA, in collaboration with the ASEAN, supports the marketing and promotion of ASEAN GAP.

Why choose GAP? > Reducing risks from farm to table

GAP farmers follow strict standards to keep food safe while caring for the environment.

Every step from seed to sale is recorded to guarantee traceability

Benefits for Consumers

Safe & Reliable:

Minimized risk of contamination

High Quality:

Fresh and tasty thanks to careful post-harvest handling.

Environmentally Friendly:

Supports sustainable farming

Choose GAP, cheer our farmers!
