ASEAN-JICA FOOD VALUE CHAIN DEVELOPMENT PROJECT

ONLINE SEMINAR ON BIOSTIMULANTS AND LABORATORY MANAGEMENT

On November 10 and 13, 2025, AJFVC Output 2 hosted two online seminars focusing on biostimulants and laboratory management, attracting over 100 participants from ASEAN Member States, Timor-Leste, Japan, and Australia. The first seminar explored biostimulants as sustainable solutions for crop enhancement, featuring insights from Australia, the Philippines, and Japan to discuss regulatory progress in their respective countries.

The second seminar aimed to build on prior pesticide residue analysis training by addressing laboratory management, with contributions from Lao PDR's PPC, Cambodia's NAL, and Singapore's SFA, who shared updates on national laboratories and advancements in testing techniques. These seminars were part of AJFVC's initiative to enhance sanitary and phytosanitary measures in the region.

AJFVC VIDEO RELEASE

We are pleased to announce the release of AJFVC video. Check it out by clicking below or visiting our YouTube channel www.youtube.com/@AJFVC

On December 9, 2025, Melody Laksani, Japan-ASEAN Goodwill Ambassador on Food and Agriculture, visited the AJFVC office following the "Experience Japanese Food Culture: Taste the Authentic Japanese cuisine" event at the ASEAN Secretariat.

Organized by the Mission of Japan to ASEAN, the event aimed to strengthen ties among Japan, ASEAN and dialogue partners by showcasing Japanese cuisine and culture.
